

7th International Fermi Symposium

Tuesday, 17 October 2017

Transients and Gamma-Ray Bursts I: Gravitational Waves (08:30 - 10:30)

-Conveners: John Kirk

time	[id] title	presenter
08:30	[148] Gravitational Wave Astronomy with Advanced LIGO/Virgo	NITZ, Alexander
09:00	[179] GBM results in the GW Era	BURNS, Eric
09:30	[80] INTEGRAL follow-up of the gravitational wave events	SAVCHENKO, Volodymyr
09:45	[176] Follow-up of Gravitational Wave Events with the Fermi-LAT. Current Status and Prospects for the Future	OMODEI, Nicola
10:00	[96] Off-axis short GRBs from structured jets as counterparts to GW events	KATHIRGAMARAJU, Adithan
10:15	[270] Analysing the light curve and spectra of the first detected kilonova	JERKSTRAND, Anders
