

7th International Fermi Symposium

Thursday, 19 October 2017

Extragalactic diffuse & EBL (11:00 - 12:50)

-Conveners: Seth Digel

time	[id] title	presenter
11:00	[130] Cosmic rays, particle acceleration, and Fermi constraints on star and galaxy formation	PFROMMER, Christoph
11:30	[187] Radio and Gamma-Ray Constraints on the Wind, Magnetic Field, and Cosmic Rays along the minor axis of the starburst M82	BUCKMAN, Benjamin
11:45	[216] X-ray to gamma-ray virial shock signal from the Coma cluster	KESHET, Uri
12:00	[116] The Extragalactic Background Light in the Fermi Era	AJELLO, Marco
12:15	[100] Measuring the Cosmic Star Formation Rate Density with Fermi-LAT	FINKE, Justin
12:30	[256] 10 yrs AGILE	TAVANI, Marco
