

7th International Fermi Symposium

Friday, 20 October 2017

Future gamma-ray satellite missions (11:00 - 12:15)

-Conveners: Marco Ajello

time	[id] title	presenter
11:00	[185] The Path from COSI to COSI-X	ZOGLAUER, Andreas
11:15	[71] Polarimetry and high angular resolution gamma-ray observations in the MeV regime using a novel detector concept	HORAN, Deirdre
11:30	[237] All-Sky Medium Energy Gamma-ray Observatory (AMEGO) - A discovery mission for the MeV gamma-ray band	PERKINS, Jeremy
11:45	[155] Viability of a nano-satellite Compton space telescope	BERLATO, Francesco
12:00	[167] Monitoring of gamma-ray burst with a fleet of nanosatellites	OHNO, Masanori
