

# 7th International Fermi Symposium

## Monday, 16 October 2017

### Pulsars I (10:40 - 12:10)

-Conveners: Robin Corbet

time	[id] title	presenter
10:40	[108] Pulsars: implications from Fermi LAT observations and future prospects	GUILLEMOT, Lucas
11:10	[76] Order parameters for the high-energy spectra of pulsars	TORRES, Diego
11:25	[184] The first detection of a pulsar with the Atacama Large Millimetre Array	RUDAK, Bronislaw
11:40	[219] Understanding the Pulsar High Energy Emission: Macroscopic and Kinetic Models vs. Fermi Data	KALAPOTHARAKOS, Constantinos
11:55	[162] MeV Pulsars: Modeling Spectra and Polarization	HARDING, Alice
