

7th International Fermi Symposium

Tuesday, October 17, 2017

Transients and Gamma-Ray Bursts III: Radio Transients and Novae - GaPa/2-1 - Konzertsaal (4:15 PM - 6:00 PM)

-Conveners: Guillaume Dubus

| time | [id] title | presenter |
|---------|---|---------------------|
| 4:15 PM | [210] Fast Radio Bursts - implications for Fermi and future prospects | CALEB, Manisha |
| 4:45 PM | [149] Probing mass ejection in nova outbursts using gamma-rays | Dr MARTIN, Pierrick |
| 5:00 PM | [35] Gamma-ray Novae: Rare or Nearby? | MORRIS, Paul |
| 5:15 PM | [83] Classical Novae in the Age of Fermi | LINFORD, Justin |
