

# 7th International Fermi Symposium

## Tuesday, October 17, 2017

### Stellar sources (galactic and extragalactic) III - GaPa/1-1 - Olympiasaal (4:15 PM - 6:00 PM)

-Conveners: Martin Pohl

time	[id] title	presenter
4:15 PM	[177] New Extended GeV Sources in the Galactic Plane Found using 6 years of Fermi-LAT Pass 8 data	GRONDIN, Marie-Hélène
4:30 PM	[147] Resolving the Crab Nebula in TeV gamma-rays with H.E.S.S.	HOLLER, Markus
4:45 PM	[78] On the origin of gamma-ray emission toward SNR CTB 37A with Fermi-LAT	ABDOLLAHI, Soheila
5:00 PM	[6] Similarity of $\gamma$ -ray spectrum in middle aged supernova remnants interacting with molecular clouds: what can we learn?	TANG, Xiaping
5:15 PM	[97] Diffusive shock acceleration in the young supernova remnant G1.9+0.3	BROSE, Robert
5:30 PM	[142] A New Gamma-Ray Source in the Vicinity of the Galactic Supernova Remnant G306.3-0.9	ERGIN, Tulun
