

7th International Fermi Symposium

Thursday, 19 October 2017

Analysis techniques II: Catalogs - GaPa/1-1 - Olympiasaal (16:30 - 18:00)

-Conveners: David Paneque

time	[id] title	presenter
16:30	[53] Improving the Fermi LAT source catalog and interstellar emission model	BALLET, Jean
17:00	[67] The second catalog of flaring gamma-ray sources (2FAV): observing astrophysical accelerators in real time	BUEHLER, Rolf
17:15	[124] Effects of Biases of the Interstellar Emission Models on Point Source Finding and Characterization with the Fermi-LAT	CHARLES, Eric
17:30	[88] The First Catalog of Low Energy Fermi-LAT sources	PRINCIPE, Giacomo
17:45	[68] Calorimeter-less gamma-ray telescopes: Optimal measurement of charged particle momentum from multiple scattering by Bayesian analysis of filtering innovations.	BERNARD, Denis
