

7th International Fermi Symposium

Friday, 20 October 2017

Neutrino-Gamma connection & The Sun (08:30 - 10:30)

-Conveners: Elena Orlando

| time | [id] title | presenter |
|-------|---|------------------------|
| 08:30 | [207] Fermi Large Area Telescope observations of the Sun: The first ten years | PESCE-ROLLINS, Melissa |
| 09:00 | [29] Search for GeV neutrinos associated with solar flares with IceCube | DE WASSEIGE, Gwenhaël |
| 09:15 | [81] Origin of cosmic neutrinos in the Fermi context | WINTER, Walter |
| 09:45 | [17] A minimal model for extragalactic cosmic rays and neutrinos | KACHELRIESS, Michael |
| 10:15 | [102] On the Detection Potential of Short Blazar Flares for Current Neutrino Telescopes | Mr KRETER, Michael |
