

First Results from the SRG/eROSITA All-Sky Survey: From Stars to Cosmology

Monday, 16 September 2024

AGN and Host Galaxies - TUM Hörsaal/lecture hall 1 (HS 1) (14:30 - 16:55)

time	[id] title	presenter
14:30	[342] AGN and their host galaxies	AIRD, James
14:55	[329] The AGN content in eROSITA DR1	SALVATO, Mara
15:15	[314] Simulation-based inference of the AGN population based on the radiation-regulated unification model in the X-rays	GEROLYMATOU, Dimitra
15:30	[288] Hard X-ray selected sources in the first eROSITA all-sky survey	WADDELL, Sophia
15:45	[212] Hyper-luminous AGN candidates in eFEDS viewed with SCUBA-2 on JCMT and KOOLS-IFU on Seimei Telescope	TOBA, Yoshiki
16:25	[249] The LOFAR-eFEDS survey: Global energetics and feedback as probed by AGN incidences	IGO, Zsofi
16:40	[323] AGN in dwarf galaxies: the eRASS1 revolution	SACCHI, Andrea
