

First Results from the SRG/eROSITA All-Sky Survey: From Stars to Cosmology

Thursday, 19 September 2024

AGN feedback - TUM Hörsaal/lecture hall 1 (HS 1) (10:50 - 12:30)

time	[id] title	presenter
10:50	[355] Physics of Galaxy Clusters and Groups	MERNIER, Francois
11:15	[295] Incidences and energetics of AGN winds in a distant universe	MUSIIMENTA, Blessing
11:30	[273] The wind properties of the eROSITA-selected SDSS-V quasar sample	RANKINE, Amy
11:45	[322] (R) Constraining CGM physics with eRASS and CAMELS	LAU, Erwin
12:00	[230] Constraining AGN Feedback with eROSITA Observations of Galaxy Groups	BAHAR, Y. Emre
12:15	[280] Reliably measuring the host galaxy mass of luminous AGN with GRAHSP	BUCHNER, Johannes
