

664. Wilhelm und Else Heraeus-Seminar on Prebiotic Molecules in Space and Origins of Life on Earth

Thursday, March 22, 2018

The assembly of prebiotic molecules (2:30 PM - 6:30 PM)

time	[id] title	presenter
2:30 PM	[65] Prebiotic Chemistry: Synthesis and Selection	POWNER, Matthew
3:15 PM	[66] Prebiotic origin of nucleosides in a formamide context	BOTTA, Lorenzo
3:45 PM	[26] Exploring the emergence of complexity with microfluidic droplets	Dr TURK-MACLEOD, Rebecca
5:00 PM	[15] The ethanol tree: possible gas-phase formation routes of glycolaldehyde, acetic acid and formic acid in ISM	VAZART, Fanny
5:15 PM	[43] Recent Advances in Our Understanding of the Prebiotic Molecular Complexity in Astronomical Environments.	REMIJAN, Anthony
